Thinking about joining NASRA?

Founded in 1955, the **National Association of State Retirement Administrators** is the leading association of public pension administrators. Our focus is to provide education, research, and idea sharing to best manage sustainable and meaningful lifetime retirement income.

NATIONAL REACH

Our members are the CEOs of the 84 largest U.S. public retirement systems who manage defined benefit, hybrid, cash balance and defined contribution plans and who oversee about two-thirds of the more than \$5 trillion total in public pension fund assets.

INDUSTRY INTELLIGENCE

NASRA provides industry data and analysis through issue briefs, papers, letters, presentations, and commentary on investments, legislation and regulation, governance, litigation, benefits, operations and online at the Public Fund Survey and Public Plans Data, at the Annual Meeting's Roll Call, and much more.

NETWORK

The nation's public pension plan leaders gather twice a year at the NASRA Annual Conference in August for five days of unparalleled discussions, education, and information. The Winter Meeting (end of February) in Washington, DC, covers pending federal and legal topics.

Education Alliance Members are the administrators of governmental units that either manage assets for public retirement plans or the operations of pension plans such as city/county/local plans, investment boards, or non-U.S. public retirement agencies or organizations.

2024 Member Benefits—\$3,400 annual dues
